Grounds Report

Seasonal employees are hired. Just waiting for them to start. Streams are cleaned and on, tank is full and the new level sensor is working perfectly! We have aerated all the cemeteries and charged all the water systems at all cemeteries. Because the ground didn't freeze this winter, I expect a more trouble-free summer for irrigation maintenance. We're starting our first mow of the year, but with lack of moisture, the green-up is a bit slower than normal. Fertilizer is ordered and we are in Memorial Day prep mode.

Wright Niche wall and punch list

The niche wall went up in Wright last week. As soon as he seals the stone, staff will attach the doors and install the remainder of the granite products there. PRC has only to seal the concrete. Gates, cameras, door access controls are all working perfectly.

Gooseneck Trailer

The trailer has been ordered. 4-6 weeks for delivery. We have a 25% down requirement, which we should have by payroll next week.
